EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ian McLeod on January 6, 2005.

The application has been amended as follows:

In claim 2, the phrase "carbon containing" which appears in the 9th line under the structure has been canceled.

The following is an examiner's statement of reasons for allowance: the method of inhibiting a parasitic helminth by using the claimed anthraquinones is not seen to be taught or fairly suggested in the prior art. The closest art of Spainhour et al. teaches the use of emodin to inhibit a helminth, however, applicant's compounds are different than emodin in that emodin requires an OH group in the position occupied by the variable R of the instant application (the 3 position), wherein R of the instant application must contain 1-12 carbon atoms. The use of these divergent compounds are not seen to be taught or fairly suggested in the prior art to inhibit parasitic helminths.

Art Unit: 1623

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
